

Save Our Schools- Save Our Students

**School Districts and stakeholders working together...**

Save Our Schools- Save Our Students

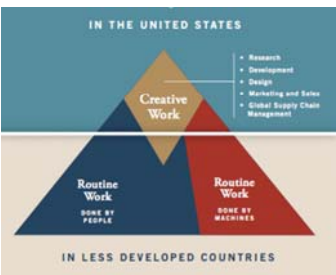

Today's kids may never experience...

When Spam was a "meat" product.  
 Having to manually unlock a car door.  
 Pay phones.  
 The number of TV channels being a single digit.  
 LEGO just being square blocks of various sizes.  
**THAT THERE WAS NO BROADCASTING CHANNEL FOR TV!**  
 Inserting a VHS tape into a VCR to watch a movie or to record something.  
 Watching TV when the networks say you should.  
 Rotary dial televisions with no remote control.

Save Our Schools- Save Our Students

*Why???* Prototypical U.S. Industry  
 ...in 10 years if all goes well

IN THE UNITED STATES

- Research
- Development
- Design
- Marketing and Sales
- Global Supply Chain Management
